REFERENCE LETTER

To whom it may concern

We provide this recommendation letter attesting the above standard collaboration with Hauraton, the representative office of Hauraton GmbH & Co. KG Germany in Slovakia as a producer of light liquids separators „AQUAFIX“.

Particular for the construction of “SO 720 Rainwater drainage” part of “KIA MOTORS SLOVAKIA – car assembly plant in Teplička nad Váhom” project have been delivered SKG2BP 250, SKG2BP 350 and SKG2BP 400 including all necessary accessories.

We would like to express due to non-standard site conditions / depth of excavation, separators dimensions, etc. / that before and during the whole period of construction we appreciated services of Hauraton - technical support, installation advices, delivery on time and effort to find appropriate system solution.

In Žilina, August 31st, 2006,

Martin Chrastina
